

Ishizuka Daisuke

Profile

Born in Nara prefecture in 1992. He was the recipient of Big Comic Superior Rookie Award in 2015. Graduated from Osaka University of Arts, Faculty of Arts, Department of Character Formation in 2016. He became popular by continuing to publish his own gag manga in magazines and on SNS while he was still in university. After that, he began creating artworks in seek of a free expression that was not bound by the small confines of manga or SNS, nor was he bound by his ever-increasing number of followers. The complex feelings of his heart, including his passions and desires, as well as his anguish and conflict, are multilayered and captured on canvas. When you watch his live paintings, you can feel the passion that overflows from his performances. We look forward to seeing his success as he has hidden creative potential that has yet to be seen.
